

SUMMER SEASONAL IRRIGATION RATES – INSIDE DISTRICT

(See footnotes below for all Others)

2011

<u>Flow Per Miner's Ince (M.I.)</u>	
.25	\$351.99
.50	423.33
1	527.76
1.5	628.98
2	727.36
2.5	853.13
3	969.27
3.5	1,073.38
4	1,166.36
4.5	1,249.02
5	1,322.10
6	1,514.22
7	1,711.11
8	1,907.85
9	2,104.62
10	2,301.36
11	2,498.10
12	2,694.87
13	2,891.61
14	3,088.35
15	3,285.12
16	3,481.86
17	3,678.60
18	3,875.37
19	4,053.84
20	4,181.67
21+ Fixed Charge per Account +	333.86 fixed +
21+ Rate per each Miner's Inch	196.75 per MI

Footnotes:

Winter Seasonal Irrigation Rates = 125% of Summer Seasonal Irrigation Rates

Annual Raw Water Rates = Total M.I. at Summer Rate + 1/2 M.I. at Winter Rate; divided by 6 for bi-monthly charge
(except 1/4 M.I. customers who are billed for 1/4 M.I. for both summer and winter)

Demand Water = Existing rate factors (based upon the number of days water is requested) multiplied by the applicable miner's inch rates shown above. A minimum of 35% of 1 M.I. will be charged

Fall/Stock Water = 10 M.I. summer seasonal rate divided by 1830 M.I.D. = Rate per M.I. per day, rounded up. A minimum of 35% of 1 M.I. will be charged

Intermittent Flow = 21+ rate per each miner's inch divided by 9.07 acre feet multiplied by 80% (w/a minimum)

All Outside District Rates = 125% of Inside District Rates
