SUBJECT: Budget to Actual Reports – FY 2025 Q2, For the period to date ending June 30, 2025

FINANCE

RECOMMENDATION:

Receive and file.

BACKGROUND:

Please find attached the Budget to Actual Reports for the period to date ending June 30, 2025, which includes the following reports:

1. Budget to Actual by Fund Summary
2. Budget to Actual by Fund and Department Summary
3. Revenue Budget to Actual by Fund Detail
4. Expenditure Budget to Actual by Fund Detail
5. Expenditure Budget to Actual by Fund and Department Detail
6. Capital Projects Activity

The budget reports presented encompass results for the second quarter (Q2) of the fiscal-year ending June 30, 2025.

Total inflows as of the second quarter total \$58,541,242, or 52% of budget.
Outflows as of the second quarter totaled \$59,179,166, or 54% of budget.

Report Summary:

Budget to Actual by Fund Summary

The Budget to Actual by Fund Summary presents the District's revenue and expenditures by Fund. This report is helpful to gain insight into the organization's overall budget performance, as well as the performance of each of the District's funds.

Through the end of the second quarter, the District has received revenues totaling \$34,471,775 or 43% of budget. Transfers-in were recorded at 73% of budget and total Inflows for the District total \$58,541,242, equivalent to 52% of the annual budget.

At the close of Q2, outflows totaled \$59,179,166, or 54% of budget. Total expenditures reached \$35,109,699 with encumbrances totaling \$8,200,583, bringing District appropriations to a total of 47% of budget. Transfers-out totaled 73%, or \$24,069,467 on a budget of \$32,916,630.

Items on the report that may require further explanation are noted below:

1. The report shows expenditures, encumbrances, and transfers separately.
2. The Capacity Fee Fund 12 shows an upturn in revenues for Q2 at 81% of budget. These revenues fluctuate based on new connections. The main increase is from the new residential subdivision, Loma Rica Ranch. In addition, Harris Road DFWLE wrapped up and 19 participant deposits were applied to capacity fees.
3. All budgeted CIP amounts have been fully transferred for the year causing transfers-in and transfers-out to be proportionately high compared to budget at the end of Q2.
4. All transfers in are recorded per the approved annual budget but may be changed to reflect actual expenditures at year-end.

Budget to Actual by Fund and Department Summary

The Budget to Actual by Fund and Department Summary is helpful in gauging budget performance by department in summary format. This report details total outflows of \$67,379,748; including: \$8,200,583 in encumbrances and \$24,069,467 in internal transfers, bringing total expenditures to 54% of budget.

Expenses in this report are higher than the expenses reported in the by Fund report, because the expense total in this report includes encumbrances in the expense total which are not included in the by Fund report total. If you deduct those encumbrances, the total expenses reported by department matches the total expenses reported by fund. While this difference between reports does not change

the analysis, it is important to understand when comparing the by Fund and by Department Reports, ensuring that they match.

Items on the report that may require further explanation are noted below:

1. The Water Fund 10 Administration Department is reporting 75% of budget expenditures spent due to budgeted CIP being fully transferred.
2. The Water Capital Fund 15 Operations Department is reporting 67% of expenditures spent, due to encumbrances for budgeted projects.

Revenue Budget to Actual by Fund Detail (Revenue Status Report)

The Revenue Budget to Actual by Fund Detail is generated by the District's accounting software and reports detailed revenue by Fund. The system name for this report is "Revenue Status Report", and it's filtered to provide budget to actual information by fund.

This report is helpful in answering questions about specific revenue types and their budget performance and is the source of revenue information reported in the revenue summary report.

Please note that it is normal for revenue to be received inconsistently throughout the year. This is due to the following reasons:

- Capacity Fund 12 revenue is reported at 81% of budget. As stated above these revenues fluctuate based on the number of new customers. The main increase is from the new residential subdivision, Loma Rica Ranch. In addition, Harris Road DFWLE wrapped up and 19 participant deposits were applied to capacity fees.
- Internal Services Fund 70 is reporting only 12% of budget through Q2 because Grant revenues are typically received later in the year due to the reimbursement process.

Total revenue and transfers-in stated in this report for the period ending June 30, 2025, reported 52% for a total of \$58,541,242.

Expenditure Budget to Actual by Fund Detail (Expenditure Status Report)

The Expenditure Budget to Actual by Fund Detail Report is generated by the District's accounting software and reports detailed expenditures by Fund. The system name for this report is "Expenditure Status Report", but it is filtered to provide budget to actual information by fund.

This report is helpful in answering questions about specific expenditure types and their budget performance by fund and is the source of expenditure data reported in the by fund summary reports.

Total expenditures and transfers-out reported total \$59,179,166, with encumbrances totaling \$8,200,583.

Expenditure Budget to Actual by Fund and Department (Budget Control Status Report)

The Expenditure Budget to Actual by Fund and Department Report is generated by the District's accounting software and reports detailed expenditures by Department. The system name for this report is "Budget Control Status Report".

This report is helpful in answering detailed questions about departmental budget performance, including specific expenditure categories by department and their budget performance. This report is the source of data used in preparing the departmental summary reports.

Total expenditures and transfers-out reported total \$67,379,748, with total encumbrances of \$8,200,583, totaling 54% of budget. This report includes encumbrances in total expenditures, in addition to reporting them separately.

Budget to Actual by Capital Project

The Budget to Actual by Capital Project is an off-book summary of capital expenditures that is used annually for the purpose of capitalizing constructed assets. The project budgets and actuals in this report do not include cost of staff time. Staff time is budgeted as an operating expense and is therefore not budgeted in the capital funds (15, 35, and 55). However, capitalization of an asset does allow for the inclusion of staff time and as such, the data is tracked separately from the general ledger.

The summary shows total FY25 expenditures to date of \$2,601,074.60 or 17% on a budget of \$15,093,093. The low percentage of expenditures is typical for the first half of the year because construction activities typically do not occur until the summer and fall months.

BUDGETARY IMPACT:

None.
