

Staff Report

for the Board of Directors' Meeting of February 24, 2021

TO: Board of Directors

FROM: Greg Jones, Interim General Manager
Kris Stepanian, Board Secretary

DATE: February 11, 2021

SUBJECT: Standing Committee Updates

ADMINISTRATION

RECOMMENDATION:

Adopt Resolution 2021-04 – Updates to District Policies, and approve proposed updates to the Board Agenda Template and District Rules and Regulations pertaining to Standing Committees.

BACKGROUND:

On February 10, 2021, the Board discussed the restructuring or elimination of Standing Committees to improve efficiencies and better inform the full Board. The following possible restructuring options for Standing Committees were presented, with staff recommendations of Option 2 or 3:

1. Leave As-Is: Standing Committee structure would remain with no changes and continue to meet once per month, as currently defined in District Policy 5300 – Standing Committees.
2. Option 1 Variation: Amend Committee meeting dates into a rotation of once per month, meeting quarterly.
3. Consolidate All Standing Committees into the Bi-Weekly Board Agenda: This option removes structured times for all four Standing Committees and brings their would-be discussion items directly to the entire Board.
4. Consolidate WHO, ENG, and M&R Committees into the Board Agenda: This option is similar to Option #2 above and removes structured times for three of the four Standing Committees, while keeping APC's meeting structure as defined in Policy Number 5300.
5. Consolidate WHO, ENG & M&R Committees into one Standing Committee: This option consolidates three Committees into one Standing Committee and continues the APC's meeting structure as defined in Policy Number 5300.

Following Board discussion, staff was directed to prepare the appropriate documents to implement changes to the District's Standing Committee structure as identified in Option #3, including necessary updates to District Policies, Rules & Regulations, and Board agenda template. If approved, Standing Committees will only convene as needed and at the Board's direction. Approved changes may take place as early as March 1, 2021.

Priority will be established based on the date of addition to the Eligibility List, and on active participation. As shown on the flowchart, the ~~Engineering Committee~~Board of Directors will determine the next neighborhood group eligible for funding under the DFWLE program and the ~~Administrative Practices Committee~~ will evaluate funding. At that time, ~~with a recommendation from both Committees,~~ the Board of Directors will consider encumbering DFWLE allocated funds and assignment of a rate of interest representing interest foregone by the District had the funds allocated for the DFWLE project been otherwise invested. Upon determination of the interest rate, the Board of Directors will assign a surcharge modifier to the DFWLE project. (The surcharge modifier is calculated as determined elsewhere in this Section.) Funds encumbered for an individual DFWLE and funds allocated for all DFWLE projects shall be subject to the discretion of the Board and to limitations imposed by the Board of Directors as part of its budgeting authority, and may be reduced or restricted as the Board deems necessary given the other financial demands on the District.

Once a project is deemed eligible as a DFWLE project, the District will incorporate the general program provisions, complete a Water Service Study, establish the maximum charge for recovering project costs, and solicit neighborhood commitment through an informative group meeting.

10.20.06 Water Service Study

The District will complete a Water Service Study for the next eligible DFWLE project as determined by the ~~Engineering Committee~~Board of Directors. Prior to beginning the study, the District will investigate the area surrounding the core neighborhood group to map the parcels which could potentially receive water service from the DFWLE. Should the District determine that expansion of the project to other parcels is necessary for the orderly expansion of the distribution system; the District will add the parcels to the DFWLE group.

The Water Service Study will include at least:

- a. Project location map and preliminary facility layouts
- b. Delineation of potential parcels served from DFWLE
- c. Project costs; including preliminary design, compliance with CEQA, design, rights-of-ways, facilities construction, construction management, and contingencies.
- d. District participation in facility costs if appropriate, pursuant to District policy (including the Capacity Charge Study).
- e. Capacity and Meter Installation charges for a minimum-size water meter.
- f. Maximum Total Charge
- g. Maximum Service Extension Charge (SEC) required to amortize the Maximum Total Charge.

The cost estimates and SEC quoted in the Water Service Study will be honored for a minimum of 12 months, giving time to complete formation of the group, and execution of a Funding Agreement with each participating parcel.

The District will perform the Water Service Study without charge to the neighborhood group.

10.20.09 Easements - Subordination of Agreement/Easements

Concurrent with the submission of the good faith deposit, owners of participating parcels must agree that before the commencement of construction by District, and in no event later than the date of execution of a Funding Agreement, they will, when requested, convey to the District easement(s), in the form prepared by the District, that the District determines are necessary for installation and maintenance of the waterline extension project. Owners must also agree to seek and obtain subordination from any mortgagor or holder of deed of trust or other lien holder of a security interest in the parcel, subordinating their security interest(s) to the District easement, the Funding Agreement, and the lien authorized under the Funding Agreement. For any necessary easements required for the waterline extension over property owned by other persons or entities, which are not participating parties but from whom an easement is required, the participating owner will seek to facilitate, in cooperation with other participating owners, the subordination of any mortgagors, trustors, or lien holders in favor of the District's easement. The Funding Agreement will specify that the District may refuse to execute the Funding Agreement, or if executed, cease the design and implementation of the pipeline extension financing project, with no further rights

or obligations between the parties, in the event the District determines, at its sole discretion, that any failure to subordinate by a participating property owner's lender or the lender for a parcel owned by another person or entity renders the project not in the best interest of the District. The District is not required to initiate proceedings in eminent domain to acquire any easement or subordination required for the DFWLE. All required right of way documentation, including subordinations necessary for a pipeline extension project must be executed and effective prior to the start of construction.

In the event that a prospective participating owner cannot obtain subordination, they may submit a written request for waiver to the General Manager. The General Manager may modify or waive the requirement to obtain subordination including title insurance, in those circumstances where it is determined that the value of the District's interest is so small as to render such documentation economically unreasonable; the risk of foreclosure is so small that it is not considered a realistic risk; and/or the lender or senior lienholder provides the District with alternative assurance satisfactory to the General Manager, that the District's easement will not be disturbed by a senior lienholder. The General Manager's determination can be appealed by written request to the ~~Administrative Practices Committee (APC)~~ Board of Directors, who may by unanimous action grant the appeal, ~~or deny the appeal, or forward the appeal to the Board of Directors with or without recommendation. If the APC denies the appeal, the applicant may make a final appeal to the Board of Directors.~~ The decision of the Board of Directors shall be made in its sole and unlimited discretion and will not be subject to appeal.
