

Nevada Irrigation District

Irrigation Water

Nevada Irrigation District was formed in 1921 to provide water to ranches, fields and orchards in Nevada and Placer counties.

The District encompasses 287,000 acres, and stretches from the headwaters of the Yuba River, Bear River and Deer Creek down to the Sierra foothills.

Within the service area, diverse crops flourish due to the differences in topographical, geological, climatic, and soil conditions.

NID provides irrigation for more than 32,700 acres.

The largest crops by acreage are irrigated pasture and family gardens/orchards.

Many of the District's raw water customers have 10 acres or fewer of irrigated land.

NID's Crop Report

Every year, NID surveys its agriculture customers to inventory the type and approximate acreage of cultivated crops. This information is used in the District's annual Crop Report data.

The Top Crop list presented here is from the 2023 crop report.

What is a miner's inch?

The majority of NID's irrigation customers purchase seasonal water, April 15 through October 14, based on a miner's inch, a water measurement that dates back to the California Gold Rush.

A miner's inch equals 11.22 gallons per minute, on a 24-hour per day basis. On the average, irrigated pasture requires about one-half miners-inch of water per acre, but this can vary.

Top Crops

Irrigated pasture

20,234 acres ... 7,312 miner's inches

Family gardens/orchards

6,410 acres ... 3,260 miner's inches

Golf courses

985 acres ... 645 miner's inches

Hay

837 acres ... 451 miner's inches

"Other"

752 acres ... 92 miner's inches

Grapes (non-table)

695 acres ... 168 miner's inches

Nursery

349 acres ... 210 miner's inches

Apples

289 acres ... 121 miner's inches

Forage (other)

230 acres ... 60 miner's inches

Parks

226 acres ... 48 miner's inches

Nuts

208 acres ... 38 miner's inches

Citrus

201 acres ... 65 miner's inches

Fruits (other)

199 acres ... 69 miner's inches

Plums

156 acres ... 54 miner's inches

Alfalfa hay

156 acres ... 42 miner's inches

Peaches

120 acres ... 45 miner's inches

Pears

120 acres ... 38 miner's inches

Berries

118 acres ... 38 miner's inches
